Industry

Do You Need...
A Trained Workforce?
An Assessment?
To Improve Your Bottom Line?
Skill Set Enhancement for Your Workers?
To Develop Specific Skills for New Technology?

Become an Industry Partner!

Through our industry partnerships ATRE provides up-to-date training for students, ensuring that they are ready and able to actively participate in the workforce.

In addition, we have worked with our industry partners to provide faculty training and work experience – honing technical skills to pass on through their teaching.

Finally, with our many industry advisory boards we maintain interaction between faculty and industry to provide continual improvement in our programs.

Contact Peter Davis, Statewide Director of the ATRE and he'll align you with regional college assistance. Whether a transportation or renewable energy company, he can assist you to identify a campus partner to help you grow your business.
